### Profile

Backend Developer with proven student internship and work experience helping companies create and maintain a better reusable codebase. Ability to continuously learn and gain experience from senior developers and through various courses. Experience on projects within the faculty doing Backend and Frontend. Passionate about learning and development with a desire to apply skills to more complex and larger projects. I consider myself an ambitious, creative, and communicative person, open to new challenges and opportunities to grow and learn. Experience with teamwork/group work.
